INTRODUCTION

PERFECTION: IMPROVED.

2018 already was an unbelievably successful year for our Customer Racing programme, impressively underlining the performance and our strive for quality in GT racing. That we were able to secure a similar number of titles in 2019 is making me really happy and is yet another proof of the very special spirit of AMG. In the process, we deliver the best possible support for our customers in nearly every GT3 and GT4 racing format while they allow us to celebrate race wins and titles all over the world in return. This scope of success, as well as our most recent victory in the FIA GT World Cup and our series of four Macau wins since 2014 underline our claim to a leading role in the GT segment. The further developments in the vehicle portfolio are raising our Customer Racing programme that is already entering its tenth year in 2020 to the next level. We are all looking forward to the new season. The course has been set for success!

Tobias Moers

Chairman of the Board of Management
of Mercedes-AMG GmbH

This year, the unique character of our Customer Racing programme became clear once again. On all continents, our teams have scored titles, race wins and podium results with the Mercedes-AMG GT3 and the Mercedes-AMG GT4. Of course, we also have experienced setbacks, that is part of the game in the course of a season. However, I was impressed by the way these were dealt with and eventually turned into success with the largest possible team effort. That is what I would like to thank all the drivers, teams and colleagues at Mercedes-AMG and HWA for. Every single one can be rightfully proud of him- or herself after this motorsport year.

Stefan Wendl

Head of Mercedes-AMG Motorsport

CUSTOMER RACING

ON VICTORY LANE SINCE 2010

Mercedes-AMG Customer Racing is tailored to meet the requirements from ambitious race teams and drivers. Along this racing line, the concept is continuously being developed further. It includes maximum support, from the maiden firing up of the car all the way to the joint plotting of race strategies. These include a rental service for race cars, support of privateer teams with professional drivers from the Mercedes-AMG Driver Pool or a comprehensive database in which all participations and results are documented.

Another groundbreaking element is the online portal (CSP) as the heart of the programme. Here, teams can call for parts, support, information and updates and place orders. The Mercedes-AMG Customer Racing Championship, a global competition for drivers and teams that additionally rewards their achievements at the

race track, has been in place since 2016. The driver to score the highest number of points during his race participations with the Mercedes-AMG GT3, the Mercedes-AMG GT4 or the SLS AMG GT3 receives valuable prizes at the end of the season.

Since the start of the programme with the launch of the legendary SLS AMG GT3 in 2010, Mercedes-AMG Customer Racing has shown continuous growth – in terms of cars, teams and achievements. In time for the tenth anniversary, the evolution version of the Mercedes-AMG GT3 and the new edition of the Mercedes-AMG GT4 are to take on their debut seasons as the new vehicle generation. In the past decade, the Mercedes-AMG Customer Racing Teams have racked up over 400 overall wins and almost 800 class wins in over 120 race series. And the success story continues!
