

ULTIMATE TRACK TOOL.

The new Mercedes-AMG GT2 PRO.

AMG
MOTORSPORT

LEVEL UP YOUR TRACK DAY.

An infinite passion for motorsport and striving for maximum driving performance have defined AMG's DNA since 1967. These elements are also the visionary foundation of the new Mercedes-AMG GT2 PRO – handcrafted in Affalterbach to push the limits of what can be achieved once again.

The Mercedes-AMG GT2 PRO is a non-homologated race car developed for track days, which convinces with its innovative design and performance features. It is ideally suited for passionate club sports racers who would like to reach extraordinarily high performance levels on the track.

PUSH2PASS TO IGNITE THE THRILL.

Our Mercedes-AMG GT2 PRO takes every track day use to a new level: the mighty AMG 4.0-litre V8 biturbo engine has a maximum power output of up to 750 hp (551 kW)*. This overwhelming performance is achieved by activating the new Push2Pass steering wheel button. This function was exclusively developed for the Mercedes-AMG GT2 PRO. Maximum performance by just pushing the button: an ideal feature for the optimum race track experience.

*Base power: 707 hp (520 kW)

RACE AND SHINE LIKE A STAR.

Exclusive design elements allow the Mercedes-AMG GT2 PRO to shine with its value. The factory delivery will be in a unique full paint finish: the matte grey colour perfectly matches the bright finish of the carbon elements, specific to the GT2 PRO. Corresponding 18-inch AMG light alloy wheels painted in two colours complement the characteristic design. Newly designed rear wing endplates round out the harmonious general appearance of the car.

DESIGNED AROUND THE DRIVER.

Ample space to expand: the Mercedes-AMG GT2 PRO provides plenty of interior room and therefore allows for comprehensive freedom of movement. Moreover, it meets the usual high safety requirements, effortlessly combining them with the user-friendliness that is typical for our race cars and impressive ergonomics in the entire cockpit.

The CUBE CONTROLS steering wheel stands out with its excellent handling and intuitive operation. The design of the steering element was optimised and further modified with the new Push2Pass function button. The latest-generation Bosch DDU within the central field of view convinces with its high-definition graphic display and therefore allows for intuitive operation.

Further exclusive interior highlights are the specifically varnished centre console and the stitching of the driver's seat that is specific to the car. Moreover, the car comes ex-factory with integrated air conditioning, allowing you to keep cool in the cockpit at any time, even in high temperatures.

ALL PRO. NO CONS.

Safety is a core competence of all our Customer Racing cars. The Mercedes-AMG GT2 PRO comes with all the proven safety features of our GT2, GT3 and GT4 models. From the carbon safety seat cell, rigidly connected to the chassis, five-point safety belts, safety nets, a fire extinguisher, a safety fuel tank and an extrication hatch all the way to a racing ABS and the multi-adjustable traction control.

Exclusive sales ex Mercedes-AMG GmbH, Affalterbach, Germany

ADD-ON PERFORMANCE. ADD-ON BENEFITS.

An exclusive car with exclusive privileges: buyers of the new Mercedes-AMG GT2 PRO benefit from a comprehensive delivery package that is included in the sales price. In addition to a GT2 PRO specific car cover, there is also a full race apparel kit from our Official Partner PUMA, consisting of an individualised race suit, gloves, competition underwear and shoes as well as a high-quality BELL helmet, finished in a GT2 PRO design.

Moreover, owners of the new Mercedes-AMG GT2 PRO receive priority when entering for the "AMG Racing Series". The AMG Racing Series unites the World's Fastest Family at Europe's most beautiful race tracks. Both on and off the track, you get the opportunity to immerse yourself in the world of Mercedes-AMG Motorsport, to find out more about your car and to connect with people who share the same passion for motorsport.

Additional features can be added at a surcharge, like a passenger safety cell, a drinking system, seat and helmet cooling for the driver and an individually assembled spare parts package.

Even though the Mercedes-AMG GT2 PRO primarily shows its strengths in track day activities, it can be converted to the fully homologated base version at any time. As a result, you can choose whether you want to make full use of the performance potential in tests and track days or to use your car for race competition.

As usual, we are also at your disposal during the activities with your Mercedes-AMG GT2 PRO with full support from our Customer Racing Programme. We support you with technology, know-how and staff from the very first shakedown up to your track day participations and beyond.

The core of all the support services is our Customer Service Portal (CSP), from which parts, assistance, information and updates can be accessed and ordered 24/7.

Moreover, we provide you with an array of additional services like, for instance, our Mercedes-AMG Driver Pool. Here, some of the world's best GT experts are available to help you make full use of the entire potential of the Mercedes-AMG GT2 PRO.

EXPERIENCE MAXIMUM SUPPORT.
